may be case in the form of a stick or a dish, concealer products, temporary tattoo products, eyeliners, and mascara bars, but also to body hygiene products such as deodorant sticks, and to care products and products for treating at least one keratinous material such as sunscreen (anti-sun) and after-sun products which may be in stick form and also nail products. It is to be noted that a deodorant product is a body hygiene product and does not relate to care, make-up, or treatment of keratin materials, including keratinous fibers, skin, or lips. --

Page 11, delete the fourth full paragraph, and substitute the following therefor:

A2

--In the present invention, R^2 , which are identical or different, can, for example, each be chosen from C_{10} to C_{42} hydrocarbon-based, e.g., alkylene groups. At least 50% of all R^2 , for example at least 75% of all R^2 , which are identical or different, can, for example, each be chosen from groups comprising from 30 to 42 carbon atoms. In the two aforementioned embodiments, the remaining R^2 , which are identical or different, can, for example, each be chosen from C_4 to C_{18} groups, such as C_4 to C_{12} groups. --

Page 19, delete the second full paragraph, and substitute the following therefor:

A3

-- Another embodiment of the invention relates to a method of making up or caring for skin, lips, or keratinous fibers comprising applying to the skin, lips, or keratinous fibers a structured composition containing at least one liquid fatty phase structured with at least one structuring polymer comprising a polymer skeleton comprising at least one hydrocarbon-based repeating unit comprising at least one hetero atom and at least one oil-soluble ester. --
